CONGRESS TAKES A REST

House and Senate Adjourned Last Night to September 21.

Washington, Aug. 25.—Senators and representatives generally left Washington today for a vacation as a result of congress declaring a 30-day just before midnight last Some will remain, however, to continue committee work, particularly in the case of the senate finance committee, which expects to continue to take up the tax revision measure.

Both the senate and house will re-

Although many had left a few days early, the senate was well filled until adjournment, and in the house, when the speaker's gavel fell at 11:58 o'clock, there were more than two hundred representatives on the floor. The closing scenes also were unus-ually quiet, although there had been heated controversies in conference committees in the last hours.

Among the bills passed at the closing session were the agricultural credits measure, the shipping board deficiency bill of 48 1-2 million dollars, with its amendment carrying \$200,000 for expenses of the disarmament conference, and the measure extending the dye embargo until

Enactment of measures was completed by President Harding, who appeared at the Capitol late for the purpose of affixing his signature to He was accompanied by Mrs. senate gallery and was an interested spectator of the hectic debate on the heer bill.

The house for the most part marked time, as it had only to complete action on conference reports. Opportunity was take by Representative Mondell, the Republican leader, just before adjournment was moved, to review the accomplishments of the session.

"No congress in American history," he said, "has made a better record of cotinuous and conscientious considers."

The Moplap natives near Tirur in the southern part of the Malabar district of India, said a Central News dispatch from Calcutta today.

The Indian riots are spreading, despite the efforts of British troops. Two British planters were reported missing in the Tirur region. The Milambur salace was plundered by rioters and then set afire. Priceless jewels and relics and records were destroyed. The house for the most part

"No congress in American history," he said, "has made a better record of cotinuous and conscientious consideration of the public business or of meritorious accomplishment in a wide field of legislation than the present

tual transfer of balances and that she the trial was postponed to a later will get a receipt in full August 31 date. convene September 21, but the latter expects to take 3-day recesses until October 3.

Although many had left a few days early, the senate was well filled unidly and have reached larger propor tions than is generally believed. The importance of the semi-official

announcement that the sums required to be paid August 31, amounting to I billion gold marks, have been as-sembled, lies in the fact that there probably will be no further disruption of the foreign exchange markets as a result of the formal transactions. These disruptions occurred at the time of the preliminary payments here and were criticized by the United States government because of the added difficulty to those engaged in foreign trade, by the forced decline of the foreign exchanges and the co-in-cident premium on the American dol-

London and New York have hand-led and will handle the bulk of the payments of Germany.

LESS DOMAIN FOR Missouri Territory May be Taken off District 14

Pittsburg, Kas., Aug. sh.—Close on the heels of the discovert that law-yers for Alexander Howat are preparing to ask Judge Frank W. Boss, of the Cherokee County Matrict court to extend the date he fixed as the final day for Howat's appeal to be filed to the supreme court from his conviction in the -Cherokee County court, came another interesting development.

lt became known that the international organization of the United Mine Workers will consider taking away all of the Missouri territory now attached to the Kansas district No. 15, and attaching to the Missouri district No. 25.

Howat has been summoned to Kansas City to most a commission of

Howat has been summoned to Kansas City to meet a committee of the international board, named by President John L. Lewis, to investigate the proposed division. If the division is made, one thousand miners now under the direction of Howat will be taken away from him. They are in twenty-two local unions and are in Bates, Vernon and Barton counties, on the state border. A large part of the steam shovel mining of district 14 is across the state line in Missouri. Included in the border strip are the mines of the Minden field, the strip mines of the Morland and newly opened Hume fields, and the shaft mines of the Rich Hill field.

In return for this loss, the Kansas district will be given the Leaven-worth field, now attached to the Missouri district, in which a small num ber of miners is employed.

To Strike for Howat.

Topeka, Aug. 26.-From the day Alexander Howat goes to jail, September 8, until the day he is released, not a ton of coal will be dug by union miners in district No. 14, William Howe, secretary of the Kansas State Federation of Labor, declared in a statement have today. in a statement here today.

Predicting that the state will have to take over the mines and try to operate them if Howat remains in jail long as the result of refusing to furnish a percent bond. Secretary a peace bond, Secretary Howe declared the state could mine coal only at an exorbitant price and that probably a special session of the legislature would grow out of the industrial court's efforts to control

Accused of Stripping Car Damaged by Fire.

Friday night about midnight Marshal Braden arrested Clyde Butter for stealing the tires and other accessories from a motor car belowing to A. D. Fortner which had been partially destroyed by fire earlier in the evening and abandoned just north of town between the homes of Capt. J. E. Thompson and Gerd Wallman.

Some one came to town and research and some partially destroyed by fire earlier in the evening and abandoned just north of town between the homes of Capt. J. E. Thompson and Gerd Wallman.

Some one came to town and research are trained at 2 o'clock Thursday afternoon when a Rock Island passenger

Some one came to town and reported that the car had been badly damaged and Marshal Braden noted that Butier and Addie Redding were listening intently and soon offer the across the crossing

Mellon Blasts Beer Hopes.

Washington, Aug. 25 .- Decision withhold issuance of medical beer

withhold issuance of medical beer regulations pending congressional action on proposed anti-beer legislation was reached today by Secretary Medion in conference with Internal revenue Commissioner Blair.

Mellon's statement virtually ends the hope that the prescription of beer as medicine ever will be allowed. It is researced as certain that the antibeet bill can be pushed through congress within two months and Medion's statement was taken to mean the proposes to hold up the regulations until that time.

MISSOURI NOTES

The Cedar County Fox Hunters' Association held its annual meeting on the John Fox farm in that county the other day.

A Kansas City policeman, in uniform, assisted in holding up a young ma in one of the parks in that city one day last week. He was later dropped from the force.

The Johnson county highway en-gineer is being kept busy these days supervising repairs and replacements

jured at 2 o'clock Thursday after-noon when a Rock Island passenger train struck a Ford touring car at a crossing about a mile and a haif south

Mr. Garrett said there was no reason to expect any improvement over the record made by the present congress so far. Of the sixty-eighth congress however, he added the people would have "some hope, because a different party will be in power."

Germany is Ready to Pay.

New York, Aug. 26.—Germany has completed arrangements for the discharging of her debt to the allies August 31. Her bankers here say that all that remains to be done is the actual transfer of balances and that she that the moticed them take Redding car and followed and where passed the abandoned car two new had just taken off the tires and throw them into the Redding car.

Later in the gening he arrested Butler and placed him in jail but Redding could not be found until the next morning when he was arrested. Both men were taken before Justice of the Poace Jeter and gave bond for their appearance for trial Wednesday night in the basement of his home in Liberty. Death was due to an electric shock or form injuries.

his home in Liberty. Death was due to an electric shock or from injuries received when he fell to the basement floor after receiving an electrical shock. His skull was fractured. A burned place across his right palm shows he had touched a live light wire in turning off the basement light.

Dennie Chester, who was acquitted in Kansas City sme time ago of the murder of Miss Florence Barton, seems determined to be a bad man. Since his acquittal he has been arrested for assaulting a crippled park employee, on suspicion of robbing a woman and the other day he was ar-

Two men were shot, one perhaps fatally, and later captured after they had attempted to blow the safe in the Frisco railroad depot at Caruthers-ville Saturday. The men, Leonard Brandall and a man known only as "Blackie," ignited a fuse and were leaving the Frisco office when detectives noticed them. They started to run and a gun battle enated. Brandall'a right arm was shot off and he suffered wounds about the body and head. He is not expected to live. "Blackie" sustained only shight injuries. Two men were shot, one perhaps

"Just Around the Corner"

BUTLER, MISSOURI

Fit for a King, but not for an American Citizen

There is many a house in the old world that has been deemed fit for a king which would make no appeal at all to the average American citizen Why? Because in this country the six-room house with hardwood floors, modern heating, plumbing and other accessories stands in higher esteem than any feudal castle with its penitentiary-like atmosphere and forbidding appearance.

The typical American home of today is the best home in the world. It is the final answer to the "isms" that have upset a large part of the earth's population. The American home spells comfort and peace of mind, which makes it worth many times its cost.

Just now the cost of such a home is surprisingly low as compared with the price that prevailed but a short time ago. Building materials have gone through a deflating which means greater values to the home builder and a much better, more attractive home for the same money.
